USEPA Comments RosemontSIR 031815.docx

Kathleen –

Attached are the comments that we sent to the Forest Service on their Supplemental Information Report (SIR). The comments were prepared by Rob Leidy and provide a critique of the methods and assumptions used in the revised analyses (no need for you to review, but I just thought you might want to see what was sent so you would have the flavor of the comments before today's call). As we agreed a few weeks ago, we did not say anything in these comments about whether

Ex. 5 - Deliberative Process

Ex. 5 - Deliberative Process

I assume that, since you will be on today's call, you will deliver the message. Let me know if you would prefer that I do it. I am working at home today and will call in directly. Carter will do the same.

-Kathy

Subject: RE: Follow-up to Rosemont Informational Meeting

Margie,

Attached are EPA's comments on the Rosemont Copper Project Supplemental Information Report. As noted at the beginning of our letter, these comments represent a best effort to provide feedback on a few key issues, but should not be assumed to include all potential concerns regarding this material that might be identified by a more thorough examination.

Thank you for allowing us this opportunity to provide our informal feedback on this document.

Regards,

Carter
